

# Purchase Area Development District

## - Business Lending & Development Services -

### WHO WE ARE

The Purchase Area Development District is a partnership organization that offers support to city and county governments in the 8-county region of Western Kentucky. This region includes the counties of Ballard, Calloway, Carlisle, Fulton, Graves, Hickman, Marshall, and McCracken.

We provide opportunities for community leaders to gather, share common concerns, and create innovative approaches to local and regional challenges. . The department serves as an intermediary between the small business owner and the public sector financing programs.

### OUR SERVICES

**We can help you to achieve your goals and fulfill your dreams by offering you the necessary training and/or financial support you might need!**

The PADD operates a Business Lending and Development Services Department to assist businesses and industries in obtaining public-sector financing and to provide technical assistance for industrial expansions and/or entrepreneurial business development.

The department provides direct loans (SBA, USDA, own programs) to eligible businesses through federally funded financing programs. The PADD also provides loan packaging assistance for other federal, state, and local programs when a business is either ineligible for a direct loan through the PADD or when it is determined to be in the best interest of the borrower.

Furthermore, our services also include assisting businesses with planning and development and being attentive to the needs of a start-up business, as well as supporting diverse needs for an existing or expanding company.

One-on-one consultation is available to help with administration, management, and financial needs of a business. The PADD is a resource center for information valuable to the business community. "Business Orientation Workshops" are offered weekly to aid business owners in establishing and maintaining a profitable and long-lived business.

We strive to stay at the forefront of business and economic indicators and trends that are invaluable to local businesses and to the economy of the Purchase Area.
