

Purchase ADD
Public Involvement Process
Revised November 2007

Purchase Area Development District

Public Involvement Plan

PURCHASE AREA DEVELOPMENT DISTRICT PUBLIC INVOLVEMENT PLAN

1. INTRODUCTION

The Kentucky Transportation Cabinet (KYTC) has established a statewide transportation planning process that follows mandates for public participation by the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA), the Transportation Equity Act for the 21st Century (TEA-21), and the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU), the Congressional acts that authorize on-going federal-aid transportation programs. The KYTC works in cooperation with the Area Development Districts and Metropolitan Planning Organizations to ensure that public involvement processes are utilized that provides opportunities for public review and comments at key decision points.

The purpose of the Purchase Area Development District (PADD) Public Involvement Plan is to describe actions the PADD Regional Transportation Committee (RTC) shall take to provide opportunities for the public to be involved in the statewide transportation planning process. It serves as a guide for PADD to follow in planning public involvement opportunities.

True public involvement is central to good decision making. Without meaningful public involvement, there is a risk of making less than optimal decisions. With it, there can be a lasting contribution to the regional well being of our neighborhoods, towns, cities, and counties. The best policy decisions by government are made in context of public participation. ISTEA and its successor, TEA-21, set the policy directions for greater public participation in federal and state transportation decision-making. The mandates of ISTEA, TEA-21 and SAFETEA-LU have fostered a more concentrated effort to develop and maintain comprehensive and effective public outreach programs in accordance with Title VI of the Civil Rights Act of 1964.

The goal of the public involvement plan will be to broaden the public input process in an effort to reach more sectors of the public. Public awareness will be a very important element in gaining public input. Emphasizing the importance of communicating and coordinating with other agencies and interests is also vital to the public involvement process. Ultimately, public involvement enhances the ability to implement transportation solutions that improve safety and efficiency, protect natural and human environments, and contribute to community vitality.

In order to gain cooperation in implementing transportation improvements, government, industry, commerce and citizens need to understand what the problems are, what improvements are necessary, what the effects will be and when each element of the program will be ready for public use and/or input. Opening transportation planning to the public through advisory committees and publishing and distributing the transportation improvement program are ways to inform the public of such issues. To be effective, it is essential that government agencies understand a given community's values and it is

equally important for the community to understand the tradeoffs and constraints associated with project planning. This mutual understanding can only be achieved through early, frequent, and continued communication. When the public is engaged in the process, their insight helps assure projects suit community needs. The true test of a successful public participation plan is the level of public awareness and feedback. Too often, public participation does not occur until after the community-at-large becomes aware of an unpopular decision.

2. PUBLIC INVOLVEMENT PROCESS

The PADD will conduct a public involvement process that will allow all persons access to the transportation planning process providing opportunities to influence the decision making process. This action will provide opportunity for all persons and interest groups to participate in the identification, evaluation, and recommendation of prioritized transportation needs. This process will involve transportation committee meetings, as well as public meetings with specific interest groups to discuss transportation issues, as deemed appropriate by the PADD and/or the KYTC. The PADD will make every effort to include the transportation disadvantaged and under-served populations, including representatives from minority and low-income populations as well as all other effected populations in the region, on committees or in public meetings held for the purpose of soliciting input for transportation plans, issues and/or projects.

The entire process is developed with a spirit of cooperation by working with the KYTC, the Federal Highway Administration (FHWA), the local city and county governmental agencies, the PADD RTC and other interested parties located throughout the region.

The entire planning process and the identification of transportation needs throughout the region, utilizes input from the KYTC Central Office, KYTC District Office, input from the city mayors, county judges, RTC, state legislators, and other interested parties that could include:

- citizens
- affected public agencies
- representatives of public transportation
- freight shippers
- private providers of transportation
- representatives of the disabled
- representatives of users of pedestrian walkways and bicycle transportation facilities
- representatives of freight transportation services
- and any other interested parties

Individual projects or needed corridor improvements that are identified may be assigned relative priorities and rankings by local officials, the RTC, the KYTC District Office and the KYTC Central Office. This process provides for ranking based on local, regional, district and statewide needs. Projects that rank consistently high at these levels and meet

other data-driven selection criteria may be recommended by the KYTC for inclusion in the state six-year highway plan. This process is repeated every two years to ensure that transportation needs are current and properly prioritized. This biennial update process assures a continuing and proactive planning process.

PADD REGIONAL TRANSPORTATION COMMITTEE

The RTC consists of representatives from each of the counties in the Purchase Region. The RTC plays a major role in the PADD public involvement process. In partnership with the residents of the communities in the region, the mission of the RTC is to determine the goals and direction for the regional transportation system and influence the expenditure of funds providing a regional transportation system that ensures the safe and efficient mobility of people and goods and enhances the region's environmental and economic well being.

The RTC can be expanded to include an advisory committee. The advisory committee will include but not be limited to as many different public arenas as possible. The advisory committee could consist of representatives from: private citizens, civic organizations, chamber of commerce, economic development commissions, trucking industry, agriculture industry, emergency and police officials, bicycle groups, school transportation officials, public transit authority, and family resources. The advisory committee should not be limited, but open and welcome to all individuals willing to participate in the planning process.

RTC meetings will be open to the public and the meeting agenda will include a public comment period. This action will be made available to allow the public ample opportunities to provide information, concerns, and issues for consideration by the regional committee. Any comments received will be documented by the PADD Transportation Planner and provided to the KYTC Division of Planning.

The PADD will also hold local or regional public information/input meetings as requested by the KYTC or by the RTC to provide additional opportunities for public comments related to transportation issues and the transportation planning process.

PADD Public Involvement activities include:

- Regularly scheduled regional transportation committee meetings
- Local or regional public/information meetings as requested by the KYTC or RTC
- Transportation Committee Reports during the monthly PADD Board of Director's meetings
- Utilizing the PADD quarterly newsletter to reach, educate and inform the public on various transportation programs/issues
- Conducting local transportation meetings with local officials and interested community leaders
- Using e-mail lists to provide transportation information materials to interested persons and agencies

- Using advisory committees/groups as an extension of the regional transportation committee to include a more diverse group of individuals and representation of the region. This extension group allows for the public involvement/input process to expand beyond the regular committee members.

Activities may also include:

- Utilizing the PADD Web Site to post transportation projects / information / comments and providing a link for public feed back
- Address civic groups, chamber meetings, government meetings concerning the statewide transportation process
- Attending Fiscal Court and City Council meetings requesting input for the Unscheduled Projects List (UPL). This would include obtaining information relative to identifying new projects, evaluating existing UPL and prioritization information. This process allows the PADD to be part of the meeting agenda, and allows local citizens the opportunity to also provide comments.
- Utilizing local newspapers to help reach more sectors of the public and provide education on the transportation planning process.
- Conduct public meetings at county courthouse, city hall, or local community centers
- Utilize existing services/programs at the PADD to distribute information (i.e. Child Care, Housing, Aging) this could provide more opportunities to reach low-income, minority, and elderly populations
- Conduct a regional transportation planning workshop for government and local officials, planning commissions, economic and tourism officials, etc. to educate them on the statewide planning process
- Utilize local county and city access cable channels
- Use surveys in newsletters, mail-outs, e-mails, etc. to gain public input

3. REGIONAL TRANSPORTATION COMMITTEE INVOLVEMENT PLAN

As a major component of the Public Involvement Process and to comply with the KYTC and SAFETEA-LU requirements for public involvement the PADD will maintain a Regional Transportation Committee for the purpose of consultation, soliciting input, developing regional goals and direction, identification and review of regional transportation needs, providing transportation information/updates and addressing any other transportation issues in the region. The committee should include a broad-based membership, develop and maintain by-laws consistent with KYTC direction, convene as necessary to complete the tasks assigned to the committee.

In agreement with the FY08 KYTC Regional Transportation Work Program Work Element 2, the PADD transportation planner will prepare a committee involvement plan for the Regional Transportation Committee, listing proposed committee meeting dates and describing activities to be undertaken during the year for the purpose of educating/informing the committee of transportation activities.

This plan may include focus areas for the committee or initiatives to prepare the committee for work tasks completions, as in the review of all projects in preparation for prioritization activities, presentation of or development of priority-setting methods and instructions for the prioritization process, as well as include designated meetings for the prioritization process. This plan should be a “blueprint” for the fiscal year activities. Based on scheduling or unforeseen circumstance changes in the plan may be required to address the needs of the committee.

The PADD transportation planner has outlined six tentative meeting dates describing potential activities to be carried out in compliance with Work Element 2. The selected activities are for the intended purpose of broadening the Regional Transportation Committee’s knowledge in the statewide planning process, as well as other transportation activities.

PROPOSED PLAN OF ACTIVITIES FOR FY 2008

1. July 10, 2007

- *Rank Top 25 Region Projects* – During FY07 the RTC began the Prioritization Process by deciding the High, Medium, and Low priorities for transportation projects listed on the Unscheduled Projects List. At the July meeting, which will be the first meeting of FY08, the RTC will rank the Top 25 projects in the region. The Top 25 projects will be determined from the High priority projects on the UPL. The RTC will use a point / ballot system to determine the ranking order.

2. September 19, 2007

- *Review Prioritization Process / Provide UPL Stats / Discuss UPL Review* – The PADD transportation planner will review the 2007 Prioritization Process, showing a DVD of the Bluegrass ADD’s Bluegrass Monopoly. A breakdown of the UPL results for the prioritization process will be shared with the committee. The PADD transportation planner will also seek feedback/input from committee members on the methods used to determine priorities and rankings for 2007.
- *Regional Goals and Objectives for FY08* – The RTC will review the current goals and objectives and propose any changes for FY08.
- *Committee Bylaws for FY08* – The RTC will review the May 2006 revised and adopted committee Bylaws for revisions.
- *Regional Transportation Committee Involvement Plan for FY08* – The PADD transportation planner will present the draft plan of activities for the FY08 work program and seek input on things the committee would like to plan if time and scheduling allows.
- *Highway Safety / Safety Committee* – The PADD highway safety planner will discuss with the committee the structure for the highway safety committees that are being formed. The PADD transportation planner will discuss how the RTC will assist the safety committees by holding at least two regional transportation committee meetings that have a safety focus.

These meetings will help the committee in satisfying requirements of SAFETEA-LU.

- *Bridge Inspections and Structurally Deficient Bridges* – KYTC District 1 staff will present a power point presentation on things involved with bridge inspections and discuss what it means when a bridge is classified as “structurally deficient”.

3. November 28, 2007

- *Update on UPL Review* – The FY08 work program calls for the PADD transportation planner to do a review of projects on the UPL. This effort could include checking for data accuracy, determine if duplicate needs have been identified, removal of projects that are no longer a need, etc. At the November meeting the transportation planner will review the status of this work element and present the committee with recommended projects for removal or possible segmentation into smaller projects, etc.
- *Public Involvement Plan for FY08* – The transportation planner will review the FY07 Public Involvement Plan, discuss any updates and seek committee approval.
- *US 68 / KY 80 LBL Fly-Thru Demo* – PADD staff will ask KYTC District 1 staff to review the status of the US 68 / KY 80 project and allow the committee to review the Fly-Thru demonstration video.
- *District 1 Fall Lettings Update / Project Updates* – Since the end of the fall season usually marks the end of the construction season, PADD staff will ask the District staff to review the status of on-going construction projects in the region and provide some insight to which projects will be looked at for the CY2008 construction season.

4. January 30, 2008

- *Highway Safety – Road Safety Audits* – This meeting will be the first of two planned highway safety focus meetings. Ms. Jo Ann Tingle, KYTC Traffic Engineer, has been asked to come to this meeting and discuss road safety audits and the Highway Safety Improvement Program.
- *New PIFs / Projects Update* – Any new PIFs that have been prepared by the PADD transportation planner will be shared with the committee in order to seek additional input or confirm information on those projects
- *PIF Cost Estimates – How are Cost Estimates Prepared?* – KYTC District 1 Pre-Construction staff will be asked to present to the committee the methods / figures used in determining cost estimates for PIF projects

5. March 26, 2008

- *Section 5310 Grant Program* – the committee will review, evaluate and prioritize grant applications from eligible agencies within the region. The committee recommendations will be forwarded to the KYTC Office of Transportation Delivery
- *District 1 Spring Lettings / Project Updates* – Since spring time brings about the start of the kick-off of the construction season, PADD staff will

ask District 1 to give a status report on new project lettings for the 2008 construction season

6. May 28, 2008

- *Possible Tour / Off-site meeting* – If there is enough interest and time and scheduling permits, the transportation planner will look into a facility tour or off-site meeting for the May meeting, suggested ideas from the RTC will be asked for in advance of this meeting.
- *UPL Review Update* – In continuation of the effort discussed during the November meeting concerning the UPL review, PADD staff will update the committee on the final stages of this work element and seek any additional input that committee members can provide.
- *Highway Safety* – This will be the second of two meetings planned to have a highway safety focus. Possible discussion on upcoming highway safety programs for the Memorial Day – Fourth of July period will be shared with the committee.

One purpose of the transportation committee meetings is the education of committee members on the statewide transportation planning process. While not all planned committee activities will have a direct focus on this process, every attempt will be made to ensure that planned activities provide some insight to committee members on the transportation needs of this region. Aside from committee meetings, the transportation planner may also use the PADD web page, e-mail transmittals, mail outs, newsletter articles and/or discussions with committee members (as a group or individuals) in helping them understand the statewide planning process and transportation issues for this region.

If time and scheduling allows the PADD transportation planner will make an effort to schedule guest speakers for the committee to increase awareness and education on the statewide planning process. Possible topics for the planner to consider are highway safety, freight planning, intermodal activities, information related to Title VI and public outreach programs, presentations from local transit authorities, presentations on local bikeways and/or greenways; committee members may identify other topics of interest that can be pursued by the PADD. There are many activities that could be put into action by the transportation planner. The previously mentioned items will be the starting point for attempting to provide more education to the Regional Transportation Committee.

4. FY 08 TENTATIVE PRESENTATION ENGAGEMENTS

In agreement with the FY08 KYTC Regional Transportation Work Program-Work Element 4, the PADD will plan to address the following groups for the purposes of educating the public on the statewide transportation planning process. PADD has identified five organizations that have potential of being scheduled during FY08. Staff will plan to make contacts with these organizations in anticipation of scheduling engagements for the 3rd and 4th quarters of the 2008 Annual Work Program. If the need arises or specific requests are made to address other groups, the PADD will attempt to schedule those engagements. In an effort to schedule potential speaking engagements the

PADD will solicit both the PADD Regional Transportation Committee and PADD Board of Directors in an attempt to outreach other groups/organizations in the Purchase Region.

Tentative Groups:

1. Paducah Area Chamber of Commerce – Transportation Committee
2. Murray Rotary Club
3. Marshall County Senior Citizens
4. Ballard County Chamber of Commerce
5. Graves County Mayfield Senior Citizens

5. PLAN FOR ENCOURAGEMENT/INCLUSION OF MINORITY, LOW-INCOME AND UNDERSERVED POPULATIONS

The PADD Transportation Planner will develop a plan to encourage participation by minority and low-income populations in the public involvement process and include subject populations in the transportation planning process, including but not limited to committee membership, county committees, meeting with various civic groups, neighborhood meetings, or other methods of contacting, informing, and obtaining input from subject populations.

Title VI was enacted as part of the Civil Rights Act of 1964. It prohibits discrimination on the basis of race, color, and national origin in programs and activities receiving federal financial assistance. Public Outreach activities will include efforts to involve the traditionally underserved groups (i.e. minorities, elderly, low-income persons) in the transportation planning process. These potentially underrepresented populations may also be youth of the community, persons with disabilities, senior citizens, and others who may be too busy to attend public meetings. These efforts may include, but not limited to the following:

- Identifying areas in the region with concentrations of minority, elderly, and low-income populations
- Including organizations that deal directly with minority groups on the Stakeholder lists
- Posting notification of meetings, public hearings, and open houses in county health departments and senior centers, local community centers, post offices and churches
- Publishing notification of meetings, public hearings, and open houses in Spanish
- RTC Advisory members to include representatives from low-income housing authorities, directors from senior citizen centers, public transportation representatives, etc.
- Including speakers/guests at committee meetings to discuss public transportation issues, pedestrian issues for minority and low income populations in their communities

The Purchase Area Development District (PADD) is composed of eight counties: Ballard, Calloway, Carlisle, Fulton, Graves, Hickman, McCracken, and Marshall. In 2000, PADD comprised 4.8% of the state's population. The table below shows the underserved populations in each county.

| Purchase ADD Counties | Total Population | Black | Asian American/ Pacific Islander | American Indian/ Alaskan Native | Hispanic | Low-Income | Age 65 Years Old and Over | Occupied Units w/ No Vehicles | Disabled 5 Years Old and Over | Speak English less than well |
|-----------------------|------------------|---------------|-------------------------------------|------------------------------------|--------------|---------------|---------------------------|----------------------------------|-------------------------------|------------------------------|
| Ballard | 8,286 | 261 | 37 | 3 | 44 | 1,102 | 1,333 | 202 | 1,710 | 45 |
| Calloway | 34,177 | 1,248 | 469 | 25 | 352 | 5,166 | 5,087 | 730 | 6,882 | 282 |
| Carlisle | 5,351 | 54 | 0 | 6 | 26 | 691 | 1,072 | 94 | 1,176 | 7 |
| Fulton | 7,752 | 1,814 | 0 | 0 | 35 | 1,731 | 1,351 | 471 | 1,755 | 9 |
| Graves | 37,028 | 1,519 | 133 | 64 | 867 | 5,921 | 6,010 | 1,339 | 8,167 | 466 |
| Hickman | 5,262 | 534 | 14 | 5 | 27 | 887 | 983 | 172 | 1,243 | 6 |
| McCracken | 65,514 | 7,179 | 42 | 192 | 623 | 9,682 | 10,449 | 2,426 | 13,688 | 181 |
| Marshall | 30,125 | 54 | 8 | 51 | 239 | 2,792 | 5,281 | 583 | 6,544 | 159 |
| Total | 193,495 | 12,663 | 79 | 346 | 2,213 | 27,972 | 31,566 | 6,017 | 41,165 | 1,155 |

PADD Quick Facts

Statewide, PADD contains:

- 4.34 percent of the Black population
- 3.37 percent of the Asian American / Pacific Islander population
- 4.11 percent of the American Indian / Alaskan Native population
- 3.92 percent of the Hispanic population
- 4.50 percent of the low-income population
- 6.27 percent of the age 65 years old and over population
- 4.05 percent of the occupied units with no vehicles
- 3.63 percent of the disabled population 5 years old and over
- 3.98 percent of the population that speaks English less than well

PADD Counties Quick Facts

- McCracken County has the largest overall and Black populations in the region.
- Fulton County has the highest concentration of Blacks in the region, at 23.40 percent. It also has the region's 3rd smallest overall population of 7,752.
- Calloway County has 50.32 percent of the Asian American population, with 469; however this total represents only 1.48 percent of the total county population of 31,706.
- Graves County has 39.18 percent of the region's Hispanic population, with 867.
- The four largest counties in the region by population are Calloway, Graves, McCracken and Marshall. These four counties contain 94.03 percent of the Hispanic population.
- Accordingly, Graves County also has the most residents who speak English "less than well" with 466. This accounts for 40.35 percent of the region population that speaks English "less than well". The four larger counties mentioned above, also contain 1088 or 94.20 percent of the population speaking English "less than well".

- McCracken County has the most low-income residents in the region, with 9,682. This represents 14.78 percent of the county population. Fulton County has the highest concentration of low-income in the region, at 22.33 percent.
- McCracken County has the most persons “age 65 years old and over” in the region, with 10,449. This represents 15.95 percent of the county population.
- Hickman County has the highest concentration of persons “age 65 years old and over” in the region with 18.68 percent. Hickman County also has the smallest overall population in the region, with 5,262.
- McCracken County has the highest total of occupied units with no vehicle, with 2,426. This represents 40.32 percent of the region total.
- The region has 41,165 disabled persons that are 5 years old and over. Percentage wise all eight counties range from 20.14 percent to 23.62 percent in this category. McCracken County has the highest number of disabled 5 years old and over, with 13,688. Hickman County has the highest concentration, for the 23.62 percent which represents 1,243 of the county population.

Summary

The concentrations of underserved populations in PADD is consistent with, or lower than, statewide trends at a regional level. While the percentages of certain underserved populations are above the state average in some counties in the region, the overall total populations in these concentrations is still relatively small. It would therefore appear that no significant concentrations of underserved populations exist in the region.

Outreach Strategy

The PADD PIP will use a broad-brush approach because there is no overwhelming population center for the traditionally underserved, and the size of these populations is relatively small. Third party group members will be identified across the eight-county area to aid in the outreach efforts of the traditionally underserved. The widespread use of newspapers, radio, and television can be used to potentially reach the underserved. Traveling exhibits can be utilized during local events and strategically placed locations throughout the region to reach the underserved populations.

PADD Participation Toolbox of Resources

In order to expand participation opportunities, the PADD has initiated a toolbox of resources for general and targeted outreach methods for the region. All of the items listed may not be used at the same time or may not be used at all, but could be used in the future by the PADD to include those persons who have been traditionally underserved by the existing transportation system and for the general participation procedures.

1. Third Party Groups

The PADD will seek to increase public outreach to the underserved populations by contacting third party groups and asking for their assistance in creating public awareness concerning transportation related issues. The agencies, groups or people that wish to provide assistance can be utilized to distribute materials pertaining to the statewide planning process. The members may be able to utilize their brochures, newsletters, word of mouth, etc concerning public meetings,

announcements of public review and comment periods for statewide planning documents by sharing and distributing the information with the populations they service. These groups may include, but not be limited to the following:

JU Kevil Center
Easter Seals West KY
Senior Citizen Centers
Public Libraries
Public Health Departments
Public Transit Authorities
NAACP
Housing Authorities
U.S Post Offices
County/City Clerk's Office
United Way
Paducah River City Mission
St Vincent DePaul Society
St. Joseph Catholic Church (Spanish Mass)
St. Thomas More Catholic Church (Spanish Mass)

2. Public Meetings

The PADD will hold local or regional public information/input meetings as requested by the KYTC or by the RTC to provide additional opportunities for public comments related to transportation issues and the transportation planning process.

3. PADD Website

The PADD Website is located at www.purchaseadd.org and has a link dedicated to the transportation planning process. The website provides an explanation of the planning process and its purpose, several documents and maps for review and an upcoming meeting calendar. This information is vital for the public participation process as it allows citizens the opportunity to understand the statewide planning process and take advantage of upcoming meetings. Further commitments to providing information will continue in an effort to make documents and forms electronically accessible formats for easy viewing.

4. Newspapers

Information can be sent to the local newspapers in the region. While none are identified as targeting specific traditionally underserved audiences, all have the potential to have traditionally underserved subscribers. Information can be distributed to the newspapers relating to media releases with announcements of meeting dates and locations, announcements of documents available for public review and comment, and information about the statewide planning process. If funding allows the advertisements of meetings and other information may be purchased.

| | |

| Ballard County | The Advance-Yeoman (Weekly) The Ballard Weekly (W) |
| Calloway County | Murray Ledger & Times (Daily) |
| Carlisle County | Carlisle County News (W) Carlisle Weekly (W) |
| Fulton County | Fulton Leader (W) Hickman Courier (W) |
| Graves County | Mayfield Messenger (D) |
| Hickman County | Hickman County Gazette (W) |
| McCracken County | The Paducah Sun (D) West Kentucky News (W) |
| Marshall County | Tribune Courier (W) The Lake News (W) |

5. Radio

Seventeen radio stations in six counties serve the region. None are identified as targeting specific traditionally underserved audiences, but all have the potential to have traditionally served underserved listeners. Public meeting invitations can be sent to the stations along with media releases with announcements of meeting dates and locations and information about the statewide planning process or statewide documents available for public review and comment. If funding allows additional advertisements may be purchased.

6. Television

Six television stations are identified as serving the PADD region.

| | |
|------------|---------------|
| Paducah KY | WPSD-TV (NBC) |
|------------|---------------|

| | |
|-------------------|---------------|
| Murray KY | WDKA (UPN) |
| Cape Girardeau MO | WQTV (UPN) |
| | KFVS 12 (CBS) |
| | KBSI 23 (FOX) |
| Harrisburg IL | WSIL (ABC) |

A number of cable access channels are also available throughout the region. These channels can also be utilized in creating public awareness.

7. Traveling Exhibits

Traveling exhibits may be used to display information about public meetings, review of statewide documents and the statewide planning process. The following locations may be utilized to display information:

- Public Libraries
- U.S. Post Offices
- County Court Houses
- City Halls
- Local Community Centers, Meeting Halls, Churches
- KYTC Highway District Office
- Purchase Area Development District
- Schools
- Malls, Restaurants, Shopping Centers
- Special Event Locations
- Other Identified Locations through Planning Process

6. REVIEW AND EVALUATION

The public involvement process is flexible and evolving. Other methods may also be identified to allow the public opportunity to review plans, discuss alternatives, question recommendations and express their view. The PADD Public Involvement Plan will be reviewed on an annual basis. During this evaluation process the RTC should discuss and explore new opportunities/methods for obtaining public input for inclusion into the plan and consider removing inefficient and ineffective methods.

All efforts to inform / educate the public, including the traditionally underserved will be documented by the PADD utilizing the quarterly report system that is required by the KYTC. If additional documentation is requested by KYTC, then staff will provide the documentation as outlined by the KYTC Annual Work Program (or special request guidelines) for the Area Development Districts.

A constant constraint in any project is funding. The RTC has limited resources to accomplish objectives. It must ensure that funds are spent in ways that will achieve the desired results. The RTC must periodically assess the effectiveness of its public involvement techniques to ensure that funds and efforts are achieving the public involvement objective.
