If any such bill, together with the penalty of 15% thereof, shall remain unpaid for a period of 30 days after rendition, an additional penalty of \$35.00 shall become due and payable, and the water service connection to the premises shall be disconnected.

(B) Any attempted payment made by non-sufficient funds check will be considered unpaid, for all purposes. In addition, a penalty of \$20 will be added to any bill attempted to be paid by non-sufficient funds check, which penalty thereafter shall be considered a part of the required payment.

Any customer disputing the accuracy of his/her bill shall have a right to a hearing before the General Manager, at which time he/she may be represented in person and/or by counsel or by any other person of his choosing and may present orally or in writing his/her complaint and contentions. Upon receipt of a request for a hearing, the General Manager shall notify the office staff of the Water and Sewer Department that such customer's service not be discontinued, and the General Manager shall have the authority to make a final determination of the customer's complaint with regard to the accuracy of his/her bill. Should the customer disagree with the General Manager's determination, the customer may present his/her complaint to the Board of Public Utility Commissioners at its next regular meeting, at which the Board of Public Utility Commissioners shall review the determination of the General Manager and may affirm or amend same, in its discretion. In any event, the customer's service shall not be discontinued until the issue finally is determined by the Board of Public Utility Commissioners, and then only upon the order of the Board.
