

APPENDIX 1

PURCHASE REGION COUNTIES STORM EVENT CHARTS

NATIONAL CENTER for ENVIRONMENTAL INFORMATION JANUARY 1, 1950 – MARCH 31, 2017

The storm events database for the National Center for Environmental Information (NCEI), formerly the National Climatic Data Center, was the main source utilized for the best available storm event data for the Purchase Region. Please see the NCEI contact page if you have questions. <https://www.ncdc.noaa.gov/customer-support>

The following tables represent the recorded hazard events identified in the NCEI Storm Events Database for the eight county Purchase Region for the period 01/01/1950 thru 03/31/2017. For some events, the earliest data available is from 1950, but depending on reporting for events, some events may not be on record until a much later time.

The information can be found by visiting the NCEI web page at:

<https://www.ncdc.noaa.gov/stormevents/choosedates.jsp?statefips=21%2CKENTUCKY>
