Introduction	1
The Plan.....	2
Roster of Work Elements	3
Chart of Accounts.....	4
Formal Books of Entry	163
Cost Allocation Policy.....	164
Methodology for Shared Costs Calculation:	
A. Listing of Prior Year's (FY '25) Shared Costs.....	168
B. Prior Year's (FY '25) Cost Allocation Basis.....	168
C. Prior Year's (FY '25) Indirect/Shared Cost Rate.....	168
Summary Schedule of Programs (FY '25)	169
Supporting Documentation.....	170
Operation Policies	171
Organization Chart	172
Certificate of Indirect Cost	173

THE PLAN

The Purchase Area Development District (PADD) through this document explains its process of identifying, accumulating, and distributing costs to program work elements and defines the method used for distribution of common expenses to grants and authorized program work elements. This plan has been reviewed and adopted by the Board of Directors of the Purchase Area Development District.

Before this cost allocation plan could be developed, it was necessary to develop a Purchase Area Development District financial management system which includes: (1) an integrated accounting system; (2) an accrual method of accounting; and (3) a method of distributing direct labor costs to program work elements on the basis of time expended on each work element.

Once the above tasks were accomplished, the next step was to identify which costs were to be consistently treated as direct and which as shared. The shared costs of a program are those costs not readily identifiable with a particular program itself, but nevertheless incurred by the Purchase Area Development District for the joint benefit of all the programs carried on by the organization. In theory, all costs might be charged directly. Practical difficulties preclude such an approach. Therefore, direct costs are those that can be identified with and benefit a particular program. In identifying the direct and shared costs, the Purchase Area Development District divided the line item elements of expenditure into four groups as follows:

1. Those that are to be treated and identified as direct costs only;
2. Those that are to be treated and identified as shared costs;
3. Those, depending upon the purpose of the expense, may be treated and identified either as direct and/or shared costs; and,
4. Those, depending upon the nature of the expenses, are to be treated and identified as local costs only.

After determining which costs are to be charged direct, which costs are shared, and which costs are local, the Purchase Area Development District prepared a "Direct and Shared Cost Policy Statement" to assure consistent treatment of cost elements of expenditure.

The next step was to choose a basis on which to allocate the shared expenses. In other words, to choose a shared cost rate method, which is simply a device for determining, in a reasonable manner, what proportion of general expenses each program should bear. Therefore, a shared cost rate is the end product of a series of cost appropriations, distributing costs which jointly benefit different programs or to programs in some reasonable relation to the benefits derived by them. The Purchase Area Development District was instructed by the Commonwealth of Kentucky, Department for Local Government, to use as its base the relationship of total shared costs to direct salaries and personnel burden. Such a base is in accordance with the instruction of the previously mentioned federal guidelines.

Establishment of the cost allocation plan also requires the maintenance of labor distribution records to form the base for allocating salaries and shared costs to the various work element programs.

As a further aid in understanding the extent of the scope and methodology in preparing this cost allocation plan, a detailed explanation of the cost allocation plan has been provided.

It should be pointed out that each time a new revenue source is received or expense incurred that the cost allocation figures represented in this document change; however, the methods presented for allocating costs remain consistent.

INTRODUCTION

The Purchase Area Development District (PADD) was established in 1972 by the Kentucky General Assembly with enactment of Kentucky Revised Statute 147A.050. The Purchase ADD's Cost Allocation Plan is based on Office of Management and Budget (OMB) Uniform Guidance 2 CFR Part 200 (formerly OMB Circular A-87) and guidance from the Department for Local Government.

The OMB Uniform Guidance 2 CFR Part 200 provides principles and standards for determining costs applicable to grants, sub-recipient agreements, and contracts with federal, state and local governments. It also assigns to federal agencies the responsibility for the negotiation and approval of cost allocation plans for distributing service costs to grantee departments at the state level. However, it became apparent that a different approach would be necessary for local governments because of their magnitude. Therefore, local governments do not ordinarily submit their cost allocation plans to the federal government for prior approval, as do the states. Instead, the plans are retained by the local governments for subsequent examination by auditors. However, the Area Development Districts of the Commonwealth of Kentucky are required under the Kentucky Joint Funding Administration program to submit their cost allocation plans to the Department for Local Government for review.

The charging of direct and shared costs against federal grants requires the preparation of a cost allocation plan. This plan is set forth in this statement for the Purchase Area Development District (PADD) and adheres to the instructions contained in the OMB Uniform Guidance 2 CFR Part 200 and the Commonwealth of Kentucky's Joint Funding Administrative "JFA Administrative Manual" for the establishment of the cost allocation plan.

FORMAL BOOKS OF ENTRY FY 2027

The Purchase Area Development District's accounting records are maintained on an in-house computer and the system requires the following books of entry:

Cash Receipts Journal

Each receipt of funds necessitates an entry to this journal. Duplicate deposit slips serve as the source for posting the cash receipts journal.

The Purchase Area Development District utilizes seventeen checking accounts. The accounting for receipts to each account is easily identifiable in the cash receipts journal.

Receipts are summarized at the end of each month and posted to the general ledger.

General Cash Disbursements Journal

Each check written from the checking accounts of the Purchase Area Development District, excluding the payroll checks, is entered into this journal. Costs are summarized at the end of each month. The monthly totals of this journal by item of expense are posted accordingly to the general ledger.

Payroll Journal

Payroll is processed Bi-Weekly. Each check written for payroll for the Purchase Area Development District is entered into this journal. This journal reflects the distribution of amounts withheld from an employee's wages and the payments of those withholdings along with the fringe portion of such payments.

Local Cash Disbursements Journal

Each check written from the local account for the Purchase Area Development District is entered into this journal. Checks are summarized and totaled each month. The monthly totals for each item of expense are posted accordingly to the general ledger.

General Journal

This is the book of entry that is used as a journal in recording adjustments, recording match, allocating travel expense, recording interest on accounts, and summarizing program revenue and expense.

General Ledger

The general ledger is utilized as the book containing totals and balances that are a result of postings from the various journals. The general ledger is used as a check and balance to insure that all the credits and the debits are in balance.

The general ledger form used by the Purchase Area Development District is a simple debit/credit balance format.

DIRECT AND SHARED COST ALLOCATION POLICY FY 2027

All costs incurred by the Purchase Area Development District are chargeable to specific program elements. These disbursements can either be classified as direct or as shared charges.

Direct charges are defined in the Uniform Guidance 2 CFR Part 200 (formerly OMB Circular A-87), issued by the Office of Management and Budget, as those costs that can be identified specifically with a particular cost objective.

Shared costs are those costs incurred by the Purchase Area Development District for a common or joint purpose which benefits more than one program element, and are not readily assignable to the program element(s) specifically benefited.

In January of 1973, the Purchase Area Development District, with the assistance of its auditor, consolidated all the grant bank accounts of the Purchase Area Development District and began a cost allocation process of accounting. The Purchase Area Development District's accounting process is a very detailed integrated accounting system based on the accrual method of accounting. When the Commonwealth of Kentucky's Area Development Districts joined together and formed the Integrated Grant Program in 1975, the processes for the allocation of expenditures to the various grants and work elements were standardized by developing one set of criteria for the accounting process. Under the Joint Funding Administration System, it is inappropriate to identify most specific costs due to the integration of the various funds within the numerous program elements. However, there are some items that should be charged direct.

In analyzing the budgeted work elements of the Purchase Area Development District, it was determined that the categories of costs were as follows:

Direct Costs Only

The direct salary costs and related personnel burden and travel expenses of an individual performing work on a specific work element, the cost of a consultant who performs work on a particular work element, or the contractual services received for a particular work element are classified as direct costs.

Shared Costs Only

Those costs of an organization which are not specifically identifiable with a particular project, service, program, or activity, but nevertheless are necessary to the general operation of the organization and the conduct of the activities it performs. The administrative activities of shared cost generally include, but are not limited to, agency personnel management, accounting, auditing, and legal services.

Mixed Direct and Shared Costs

This includes the costs of certain salaries and related personnel burden, printing and publications, travel and contractual services, etc. The Purchase Area Development District will charge the salaries and personnel burden of the administrative staff directly to programs when identifiable.

Local Expenditures Only

These include costs not allowable under grant terms and conditions.

DIRECT COSTS

We believe that the following costs fall within the Purchase Area Development District's definition of direct costs:

1. **Salaries and Wages**

All salaries of professional employees, which work specifically on certain work elements, are to be charged as a direct cost to the program element(s) in which their work is attributable.

2. **Employee Personnel Burden**

All employee personnel burden which can be specifically related to an employee whose salary is being charged directly is also to be charged as a direct cost based on the allocation of salary of that particular employee. These items of employee personnel burden that are charged as direct items are as follows:

- The Purchase ADD's portion of the cost of Health Insurance per employee.
- The Purchase ADD's portion of the cost of Dental Insurance per employee.
- The Purchase ADD's portion of the Retirement Contribution per employee.
- The Purchase ADD's portion of the cost of Life/Disability Insurance per employee.

3. **Leave**

All expenditures and accrual of leave time in the form of Vacation Leave or Sick Leave for employees whose salaries are being charged directly to specific work element(s) will also be charged as a direct charge based on the allocation of salary to that particular employee.

4. **Consultant Contracts**

All consultant contracts whose content is directly attributed to specific work element(s) are charged as a direct cost to the program element(s) in which they apply.

5. **Contractual Services**

All contractual services, which can be directly attributed to specific work element(s) are charged as a direct cost to the program element(s) in which they apply.

6. **Printing**

All printing costs, which are directly attributable to documents within a specific work element, are to be charged as direct costs.

7. **Travel**

All travel costs for employees whose time is directly attributable to specific work element(s) are also charged as direct costs based on the same percentage allocation as that of the salary of each employee. This process of charging travel is utilized by the Purchase Area Development District due to the travel complexities of the area. Since the Purchase ADD travel costs are large due to the location of the ADD to the rest of the state, the Purchase Area Development District utilizes combined purposes for travel.

MIXED DIRECT AND SHARED COSTS

The PADD has projected that the following costs will be allocated as follows between direct and shared costs:

1. **Salaries and Wages**

The salaries and wages of the administrative personnel and support staff are to be charged directly to programs when identifiable. When this represents general agency and personnel management, the costs will be charged to the shared cost pool. Actual time charged in either direct or shared administrative activities will be documented on time sheets.

2. **Employee Personnel Burden**

Employee personnel burden is to be allocated to the programs or to shared costs based on the reporting of time worked in each area. The personnel burden includes the agency's portion of health insurance, dental insurance, retirement contribution, and life and disability insurance. Worker's compensation and unemployment insurance is currently being charged to shared personnel burden.

3. **Leave**

Leave is allocated to direct or shared costs based on the reporting of time worked in each area. Leave earned by employees reporting time in the shared cost pool is charged to personnel burden.

4. **Contractual Services**

Services, which are contracted and are not directly attributable to any particular work element, are to be charged as a shared cost.

5. **Printing and Publications**

All miscellaneous printing costs are to be charged as a shared cost. Publication costs general in nature are to be charged as a shared cost.

6. **Travel/Education/Training**

Travel costs for the Executive Director will be charged directly when identifiable or will be charged to shared costs when not identifiable. The administrative/support staff's travel will be allocated to the program areas based on time records. The cost of travel reimbursement for board members and committee members will be charged as shared costs except when the travel concerns a particular or identifiable program, and then it will be charged direct.

7. **All Other Costs**

All other costs are to be charged as shared costs or charged direct when identifiable. These costs include the following items of expenditures:

- Office space, Utilities, and Maintenance
- Telephone and Telegraph
- Consumable Supplies
- Postage
- Equipment Lease
- Miscellaneous Costs (audit, bonds, organizational dues, liability insurance, legal services, etc.)

In summary, the following is a description of the accounting policies that were followed in adapting the accounting system of the Purchase Area Development District to the requirements of the Uniform Guidance 2 CFR Part 200 (formerly OMB Circular A-87):

1. The allowability or non-allowability of specific costs will be determined by specific contract, sub-recipient agreement, and Uniform Guidance 2 CFR Part 200.
2. Shared costs will be distributed to the work elements in relationship to the direct salaries and personnel burden.
3. Costs, which can be identified with a particular work element, will be charged directly to that work element.
4. Travel costs follow the time of the person doing the traveling or will be charged directly when identifiable.
5. Direct salary and personnel burden costs shall include the actual costs of the employee in that work element.
6. When a work element has direct salaries, it must be charged with its proportionate share of the shared costs.
7. Shared time is not only time that is fragmented, but some functions, such as payroll preparation, general administration, and receptionist duties are shared in their nature. This time will be allocated to the various work elements through the shared cost pool.

**METHODOLOGY FOR SHARED COSTS CALCULATION
FOR THE YEAR ENDING JUNE 30, 2025**

<i>Year Ended June 30, 2025</i>	Shared Costs	
Salaries	\$	341,480
Employee benefits		159,050
Insurance		21,647
Contractual Services		52,251
Rent		193,794
Utilities		60,135
Computer software		47,820
Travel		3,083
Janitorial		13,482
Dues and memberships		22,472
Supplies		12,235
Training and registrations		9,312
Other		925
	\$	937,686
<hr/>		
Direct Salaries and Employee Benefits:		
Salaries	\$	3,060,311
Employee benefits		1,702,250
Total	\$	4,762,561
<hr/>		
Total Shared Costs	\$	937,686
Total Direct Salaries and Employee Benefits	\$	4,762,561
<hr/>		
FY' 25 Shared Cost Rate		19.69%

SUPPORTING DOCUMENTATION

PADD maintains the following supporting documentation:

Canceled Checks

Purchase Orders

Invoices

Contracts

Time Sheets

Pay Registers and Distribution Reports

Quarterly Payroll Reports and W-2's

Written Policies

Cash Receipts Log

Deposit Slips

Bank Statements

Bank Reconciliation

Petty Cash Disbursement Slips

Travel Vouchers

Mileage Logs

Sick/Annual Leave Reports

Letters and Authorizations

Board of Directors and Executive Committee Minutes

Personnel Policies and Procedures Manual

OPERATION POLICIES

The Board of Directors of Purchase ADD has adopted operating policies covering the following topics:

- Personnel Policies
- Code of Ethical Conduct
- Computer & Telecommunication Resources Policy
- Electronic Mail Acceptable Use Policy
- General Office Procedures
- Travel Policies & Procedures
- Board Travel Policies
- Procurement Policy
- Investment Policy
- Whistleblower Policy
- Record Retention Policy
- Computer Security Policy

CERTIFICATE OF INDIRECT COSTS

This is to certify that I have reviewed the indirect cost rate proposal submitted herewith and to the best of my knowledge and belief:

(1) All costs included in this proposal for FY 2027, to establish billing or final indirect costs rates for 7/01/26 – 6/30/27, are allowable in accordance with the requirements of the Federal award(s) to which they apply and OMB Uniform Guidance 2 CFR Part 200 (formerly OMB Circular A-87). Unallowable costs have been adjusted for in allocating costs as indicated in the cost allocation plan.

(2) All costs included in this proposal are properly allocable to Federal awards on the basis of a beneficial or causal relationship between the expenses incurred and the agreements to which they are allocated in accordance with applicable requirements. Further, the same costs that have been treated as indirect costs have not been claimed as direct costs. Similar types of costs have been accounted for consistently and the Federal Government will be notified of any accounting changes that would affect the predetermined rate.

I declare that the foregoing is true and correct.

Governmental Unit: Purchase Area Development District

CERTIFICATE OF INDIRECT COSTS

This is to certify that I have reviewed the indirect cost rate proposal prepared and maintained herewith and to the best of my knowledge and belief:

(1) All costs included in this proposal dated 03/04/2026 [identify date indirect cost rate proposal was finalized] to establish indirect costs rate(s) for July 1, 2026 to June 30, 2027 [identify start/end dates for the fiscal year covered by the indirect cost rate] are allowable in accordance with the requirements of the Federal award(s) to which they apply and OMB Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (codified at 2 C.F.R. Part 200) Unallowable costs have been adjusted for in allocating costs as indicated in the cost allocation plan.

(2) All costs included in this proposal are properly allocable to Federal awards on the basis of a beneficial or causal relationship between the expenses incurred and the agreements to which they are allocated in accordance with applicable requirements. Further, the same costs that have been treated as indirect costs have not been claimed as direct costs. Similar types of costs have been accounted for consistently and the Federal Government will be notified of any accounting changes that would affect the predetermined rate.

(3) The indirect cost rate calculated within the proposal is 24.3% [identify rate(s)], which was calculated using a direct cost base type of Salary & Fringe [identify type of direct cost base – Salary & Fringe, MTDC, etc.]. The calculations were based on actual costs from fiscal year last 5 yrs to obtain a federal indirect cost billing rate for fiscal year 2027.

(4) All documentation supporting the indirect cost rate identified above must be retained by the Recipient. This rate should be reviewed and validated as part of the Recipient's annual financial audit.

Subject to the provisions of the Program Fraud Civil Remedies Act of 1986, (31 USC 3801 et seq.), the False Claims Act (18 USC 287 and 31 USC 3729); and the False Statement Act (18 USC 1001), I declare to the best of my knowledge that the foregoing is true and correct.

CAP Documentation Form

Name of ADD: Purchase Area Development District _____

Individual Completing Form: Alana Champion _____

The plan submitted is:

Cost Allocation Plan Indirect Cost Rate Proposal Blended Plan

NOTE: Some plans may be blended and have elements of both a Cost Allocation Plan (CAP) and an Indirect Cost Rate Proposal (ICRP). These plans should meet all the elements of a CAP and the any additional ICRP elements applicable to the entity.

Please verify these *required* items are included in your CAP or ICRP:

- Introductory Statement explaining the plan and any specific information
- Statement assuring the district has board-approved operation policies
- Roster of all work elements
- Chart of Accounts
- Formal books of entry
- Organization Chart sufficiently detailed to show operations
- Copy of audited financial statements or Executive Budget
- Certification of compliance with federal requirements, including reference to compliance with 2CFR Part 200
- A brief description of each allocated central service/shared costs
- Identification of unit rendering allocated/shared service and operations receiving the Service
- Items of Expense included in cost of allocated/shared services (allowable per 2CFR Part 200)
- Description of method used to distribute costs to all benefiting cost objectives

No changes in methodology of allocation or classification of costs from our FY 26 CAP

Changes from FY 26 CAP are as specified (additional pages may be used if necessary)-
